Scope of organization activities	Local
Briefly describe your organization and its activities	The House of Activity and Creativity, a Public Institution, was established in 2014 by six women living in the surroundings of

(including international cooperation)	Zapyskis, a rural place next to Kaunas, the second biggest city of Lithuania. In our local dialect, the house and home are called Stuba. This is how we call our organization shortly. And we are working in our Stuba like at home. Our organization is established in the ex-living house. We started from the activities for kids and moms, and year by year, we grew. Now we act as a community organization. Our mission is to provide a safe space and support various artistic and social initiatives which meet human values and sustainable living. We organize activities for families, young people and seniors, that is, lectures, various workshops, meetings, camps, exhibitions, amateur art, etc. Starting from 2016, we participate in local, national and international projects (youth exchanges, amateur arts, activities for families). As of 2018, we joined the Kaunas Europe Capital of Culture Community program “We, the People”.
Why organization is interested in participating in matchmaking event? What are the expectations?	We want to develop international projects, to make rural life broader and open. We expect to meet organizations similar to us.
What kind of partnership the organization is looking for or offering?	We want to partner with NGOs from rural areas, discuss and share ideas about changing communities, and change lifestyle in a rural place, families, young people, and the older generation. The work area is social issues, culture, amateur art.

4.	Community building
Organization name	<i>VšĮ Social smart</i>
City, country	Anykščiai, Vilnius
Organization website	https://www.facebook.com/social.smart.idea
Organization established (year)	2020
Scope of organization activities	Local, National
Briefly describe your organization and its activities (including international cooperation)	Social smart is a small voluntary local/national NGO implementing social, educational activities: intercultural learning for children, self-education and inspirational training to the adults (mainly, women, mothers of children of the age before school), including seniors, older people. Regarding the pandemic situation, most activities were organised online during 2020. However, we intend to organise training activities face-to-face as well.
Why organization is interested in participating in matchmaking event? What are the expectations?	Firstly, we would like to find partners working in non-formal learning for children, youth, creating new initiatives for mothers with small children, especially in small local contexts. Secondly, we would like to learn about good practices of NGOs and their activities for adults, older people in the social, educational field, especially in the context of the Covid-19 pandemic.

What kind of partnership the organization is looking for or offering?	We want to find partners for social, educational activities: sharing training methods for children, youth, seniors (both online and face-to-face training). We are most interested in sharing good practice on innovative non-formal learning methods for children of the age before school (2-6 yrs) and their mothers. Also, the involvement of seniors in community life is an important focus for us. We have an idea of developing a "Smart social-cultural street" - a community-based initiative for social, cultural training activities involving elderly people and youth. We would be delighted to find interesting, innovative methods or good examples.

Scope of organization activities	Local, National, International
Briefly describe your organization and its activities (including international cooperation)	<p>The National Institute for Social Integration is an organization that develops and applies social innovations. Through the principle of equality, it helps people from various socially vulnerable groups integrate into society. The Institute has put together a proactive office and external team to implement five programs and develop new ones. Institute is distinguished by the complex application of problem-solving methods, the involvement of vulnerable groups, and youth activities.</p> <p>The organization currently implements the following programs:</p> <ol style="list-style-type: none"> 1. Human Rights Education Program. Its purpose is to promote human rights education and raise public awareness by actively involving people from socially vulnerable groups and young people. Human rights education uses non-traditional pre-eminence and non-formal education methods. One of the program's main goals is to empower young people to play an active role in building a peaceful community based on diversity, integration, and mutual understanding. 2. Social taxi is a set of social services provided to people with reduced mobility whose primary purpose is to enable persons with reduced mobility to become autonomous. Personal assistant and shuttle services allow people with reduced mobility to move, with a specially trained personal assistant to help the client get out of the

	<p>house, maintain and encourage autonomy, maintain a pleasant, non-discriminatory conversation on the client's chosen route, and arrive at the destination.</p> <p>3. NGO Hive - a space for creation, work and communication of non-governmental organizations, social innovations and socially responsible persons. It is aimed at anyone eager and keen to bring about social change based on social innovation.</p> <p>4. The Valley of Innovators - a space of work and collaboration in a very creative process, surrounded by nature. It is dedicated to socially responsible initiatives. New ideas for delivering social business or innovation-based social services are often born in the Valley of Innovators.</p> <p>5. Seniors is a set of services that provide social services to the elderly to maintain the independence of the elderly for as long as possible. Seniors at home are assisted, communicated and creatively assisted by specially trained social work assistants at home.</p> <p>6. 17.	Work with vulnerable groups
Organization name	Association for the Physically Disabled in Lithuania
City, country	Vilnius, Lithuania
Organization website	www.draugija.lt https://www.facebook.com/lietuvosneigaliujudraugija/
Organization established (year)	1996

Scope of organization activities	National, International
Briefly describe your organization and its activities (including international cooperation)	<p>The Association for the Physically Disabled People in Lithuania currently has 64 members: associations of the disabled in 57 municipalities of Lithuania with more than 23,000 members (disabled people and their family members). Main tasks of our organization:</p> <ul style="list-style-type: none"> participate in the development and implementation of various integration programs for the disabled (both national and international level); to actively cooperate with state, municipal, non-governmental institutions, private and international organizations; to make a positive impact on the adoption of laws and strategies, to participate in the development of policy and its implementation measures in Lithuania and the EU; to research, analyze and address relevant social issues of the disabled on their initiative or by participating in working groups.
Why organization is interested in participating in matchmaking event? What are the expectations?	The Association for the Physically Disabled in Lithuania has prepared the project "Skills+ Competitions in Lithuania" to integrate disabled people into the open labour market. We are searching for partners in this project. We also open to various other ideas regarding the projects.
What kind of partnership the organization is looking for or offering?	The main problem addressed by the project "Skills+ Competitions in Lithuania" is integrating disabled people into the open labour market. Another problem that the project also seeks to address is employers' attitude on who can employ disabled people in the open labour market towards this social group. The proposed solution to these problems is professional competitions for people with disabilities to enable this socially vulnerable group to participate and establish themselves in the open labour market actively. The project will be implemented with a partner from Bulgaria – National Training Center. The project will involve at least 60 people with disabilities from the counties of Vilnius, Kaunas and Klaipeda, who will compete with each other in two areas – catering and ICT – depending on which one they have professional competencies. In terms of the project, the Association for the Physically Disabled in Lithuania will actively cooperate with various NGO's representing the interests of people with disabilities, as well as vocational training centres, business companies and associations of employers. We will also work together with state institutions and the media to promote the integration of people with disabilities into the open labour market.

Organization name	<i>Institute of Regional Development & Welfare</i>
City, country	Marijampole, Lithuania
Organization website	www.regionupletra.lt
Organization established (year)	2021
Scope of organization activities	Local
Briefly describe your organization and its activities (including international cooperation)	Our organization aims to enhance social inclusion by delivering solutions that ease the daily life of vulnerable groups of people in remote regions. The organization focuses on helping people with disabilities. However, it also supports those who face poverty, economic deprivation, anti-social behavior, lack of infrastructure, unemployment and alcohol abuse. It closely communities with local communities to stay up to date to social challenges, mobilize financing and implement projects that focus on improving vulnerable communities' wellbeing.
Why organization is interested in participating in matchmaking event? What are the expectations?	Our organization is interested in participating in the matchmaking event to find and establish a long term international partnership. We seek to find a partner to implement joint projects, discuss social problems, exchange ideas and share experiences.
What kind of partnership the organization is looking for or offering?	Researching disabled people needs and social challenges in local communities, our organization has recognized the need for transportation services and day time activities. People with disabilities encounter the problem of reaching health care providers and other vital destinations daily, and thus, our organization seeks to solve this issue. It is also essential to organize day time activities for disabled adults and children to ensure socialization and help disabled people to make friends, form relationships, gain and utilize new skills. However, more profound knowledge and a broader perspective are needed. Therefore, we hope to establish a partnership with an international partner, which would help solve a particular issue and ensure the exchange of the best practices in the social services sector, helping to meet the human needs of local communities.

Organization name	<i>VŠJ "Unikalus šokis" (Unique Dance)</i>

City, country	Vilnius, Lithuania
Organization website	https://unikalussokis.weebly.com/ https://www.facebook.com/uniqdanceperkunkiemyje
Organization established (year)	-
Scope of organization activities	Local
Briefly describe your organization and its activities (including international cooperation)	Unique Dance proposes inclusive dance activities for people with special needs. These dance lessons improve posture, physical and brain condition, sensomotoric and social skills. Unique dance is not only dance lessons, but the better integration in society, too. The organization "Unikalus šokis" will organize various events to raise awareness for people with special needs and help them to be full-fledged members of society. We want to expand the organization and include professional disabled dancers to create motivating dance performances
Why organization is interested in participating in matchmaking event? What are the expectations?	In other countries, professional inclusive dance organizations have already been developed. There is no such organization in Lithuania, we want to create it in Lithuania as well.
What kind of partnership the organization is looking for or offering?	The pandemic moved all dance classes online and proved to be the most effective way to reach the shyest and most self-isolated people in Lithuania. They seem to feel safer and more comfortable behind the screens. Our survey shows they're more likely to join the activities if they can first try them online. In the future, we hope to host activities in the studio, but mostly we want to continue working online. We want to create a website that includes informative texts for everyone interested, videos translated into sign language, and pre-recorded dance lessons, where the movements are verbally communicated for those with visual impairment. The website itself would be created using the latest scientific findings to make such websites available to the maximum number of people. We would also use already existing social media platforms and platforms best-suited for live classes and live communication.

<p>Why organization is interested in participating in matchmaking event? What are the expectations?</p>	<p>We are interested in international cooperation, and we are constantly looking for partners to develop and implement projects in culture, education, and social policy. In this matchmaking event, we hope to find partners to create a project proposal for the Active Citizen Fund Call to increase citizen's participation in civic activities. Also, we are interested in developing bilateral cooperation initiatives, e.g. exchange of experience project proposal with organizations working on a multidisciplinary basis, but within cultural, education, and social sectors.</p>
<p>What kind of partnership the organization is looking for or offering?</p>	<p>Unfortunately, we don't have a concrete idea for bilateral cooperation yet, but we would like to develop one. We have a brief project idea for the Active Citizen Fund call to increase citizen's participation in civic activities (Outcome 1). Our idea is to create a series of workshops/labs that would gather together local citizens, cultural organizations, local authorities, cultural and creative spaces to explore urban challenges in collaboration with other stakeholders. Together, they would commit to developing innovative solutions to the challenges they are facing. We see it as an initiative, engaging grassroots and offering innovative forms for public dialogue and participation. Thus we are looking for partners who might already have some relevant experience developing and facilitating similar processes.</p>
