Newsletter from the Global Action Network

Sustainable Food from the Oceans and Inland Waters for Food Security and Nutrition

We are happy to send you our Spring 2023 Newsletter, sharing ongoing work and news from the Global Action Network.

To feature your activities, solutions or relevant events supporting the Global Action Network [mission](#) in future newsletters, please contact us via foodfromtheocean@hi.no.

Posts from @AquaticFood4FSN

Relevant actions

The Global Action Network [Action Plan](#) includes arranging annual meetings, workshops and events, recognize interested parties and establish connections to promote collaboration and interaction among cross-sectorial actors focusing on the important elements for food security *from Healthy Waters to Healthy People*.

2023 working groups

In 2023, the Global Action Network will have four working groups in the network to conduct multiple projects and/or events:

- Small-scale fisheries (SSF)
- One Food System
- Bridging the Decades
- Food Composition Data

If you are interested in joining any of the working groups, please email foodfromtheocean@hi.no.

Call for experts: the Joint FAO/WHO Expert Consultation

The Food and Agriculture Organization of the United Nations (FAO) and World Health Organization (WHO) are seeking experts to serve as members of a Joint FAO/WHO Expert Consultation on *the Risks and Benefits of Fish Consumption*.

Proposal for update of the HLPE report 7

Norway, supported by many other stakeholders from our network, has proposed that the UN Committee on World Food Security (CFS) should update the HLPE report 7 on Sustainable Fisheries and Aquaculture for Food Security and Nutrition, and the related CFS recommendations if needed.

African perspectives on aquatic food for food security - One Ocean Expedition seminar

Small Scale Fisheries (SSF), industrial fisheries and aquaculture as well as nutritional challenges were addressed. Industrial approaches would be needed to increase the role of aquatic food in the population as a whole, but SSF is key for coastal communities and needs attention to ensure equitable access.

Relevant knowledge and solutions

The Global Action Network will continuously identify challenges, exchange knowledge and solutions related to the key elements of food security. Through the [Gain and Share Tool](#), you can gain and share knowledge to promote sustainable food from the oceans and inland waters for food security and nutrition.

Here we are featuring challenges and solutions in [Leave no one behind](#) and [Sustainable aquaculture production](#).

COVID pandemic: How to ensure nutrition along the fisheries value chain

The COVID pandemic has impacted both the supply and demand of fish to provide nutritious food. While the producers and consumers are more health-conscious than ever (in both human and natural resources), the needs to focus on facilitating intermediary sectors and the actors between production and consumption are paramount.

Safe Seaweed by Design protocols

Seaweed has received a lot of attention as a promising biomass with a range of applications and its ecosystems services. However, safety comes first. The Safe Seaweed by Design project has developed protocols to help the young European seaweed sector grow safely. With the end of the Project (03.2023) we are happy to publish our protocols and hope to reach stakeholders of the industry.
