

Newsletter from the Global Action Network

Sustainable Food from the Oceans and Inland Waters for Food Security and Nutrition

We are happy to send you our Winter 2024 Newsletter, sharing ongoing work and news from the Global Action Network.

To feature your activities, solutions or relevant events supporting the Global Action Network [mission](#) in future newsletters, please contact us via foodfromtheocean@hi.no.

Relevant Actions

The Global Action Network [Action Plan](#) includes arranging annual meetings, workshops and events, recognizing interested parties, and establishing connections to promote collaboration and interaction among cross-sectorial actors focusing on the important elements for food security *from Healthy Waters to Healthy People*.

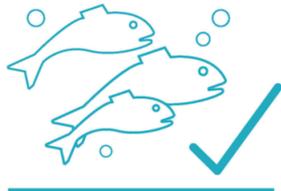

Network Meeting 2024 - Summary

We held our [Annual Network Meeting](#) in connection with CFS 52 in October. This was a hybrid meeting with in-person participation at FAO headquarters and virtual attendance via Zoom, bringing together 177 registrants from 56 countries and representatives from the EU and UN. Participants included members of government, institutions, NGOs, and industry.

We are inviting network participants to join our [TaskForce](#) and the following working groups:

- [Small-Scale Fisheries](#)
- [One Food System](#)
- [Food Composition Data](#)
- [Bridging the Decades](#)

Please [email us](#) if you wish to join any of these.

News from Network Participants

The Global Action Network will continuously identify challenges, exchange knowledge and solutions related to the key elements of food security. Through the [Gain and Share Tool](#), you can gain and share knowledge to promote sustainable food from the oceans and inland waters for food security and nutrition.

Here we are featuring challenges, solutions, and knowledge in [Nutritious aquatic food](#) and [Sustainable aquaculture production](#).

EAF-Nansen Programme Celebrates World Fisheries Day in Dakar

The FAO/Norway EAF-Nansen Programme celebrated World Fisheries Day 2024 in Dakar, Senegal, with an event at Cheikh Anta Diop University. Featuring 190 participants, including 140 students, the event highlighted sustainable fisheries' role in food security, livelihoods, and marine health. Discussions, a documentary screening, and expert panels emphasized collaboration and education in fisheries management.

WorldFish Promoting Nutrition-Sensitive Aquaculture in India through Small Indigenous Fish Species (SIS)

[WorldFish](#), through a [BMZ and GIZ](#) funded [project](#), has successfully developed simple and replicable techniques for mass seed production of several SIS including mola (*Amblypharyngodon mola*) through hatchery-based induced breeding followed by nursery rearing and grow-out culture for advancing nutrition-sensitive aquaculture in India. Business models are being developed for commercialization and upscaling of seed production and distribution network.
